

## ORION-DALI-75/24V

- Single channel constant voltage output
- Meets the DALI protocol IEC 62386
- Supports Touch DIM function
- High input voltage of 200VAC ~ 240VAC
- Smooth dimming effect, no flicker
- Over load protection & Over voltage protection
- IP20 suitable for indoor LED lighting application

|                            |                            |
|----------------------------|----------------------------|
| <b>Input Voltage</b>       | 200-240VAC                 |
| <b>Channels</b>            | 1                          |
| <b>Power Factor</b>        | PF >0.95                   |
| <b>Output Current</b>      | 3.1A                       |
| <b>Wattage</b>             | 74.4w                      |
| <b>Voltage</b>             | 24V                        |
| <b>Dimming Mode</b>        | DALI / Touch Dim           |
| <b>Working Temperature</b> | -20° ~ +40°                |
| <b>Efficiency</b>          | 85%                        |
| <b>IP Rating</b>           | IP20                       |
| <b>Dimensions</b>          | 212.5mm×53.9mm×33mm(L×W×H) |
| <b>Weight</b>              | 460g                       |
| <b>Warranty</b>            | 3 years                    |

# DALI 75W

3.1A | 75W | 24V

Please Note: Using a lower input voltage than 230V will decrease the maximum output the driver can supply.
